Career Objective

To obtain a challenging role as a Junior Front End Developer where I can leverage my 1+ years of experience in HTML, CSS, JavaScript, React, Node.js, Express.js, and MongoDB to develop high-quality, user-friendly web applications. As a fresher, I am eager to learn and enhance my skills while contributing to the growth and success of the organization.

Technical Skills

Frontend: HTML, CSS, JavaScript, React, Next.js, TailwindCSS

Backend: Node.js, Express.js

Database: MongoDB, Firebase

Other tools: Git, GitHub, Netlify, Vercel

Projects

- **Personal Portfolio Website:** Developed a responsive personal portfolio website to showcase my projects and skills using HTML, CSS, JavaScript, React.
  GitHub | Live Link

- **E-commerce Platform:** Built a full-stack e-commerce platform with user authentication, product listings, and shopping cart functionality using React, Node.js, Express.js, and MongoDB. Integrated payment gateway using Stripe API.
  GitHub | Live Link

- **Eraserio-Clone:** The project at Earserio Clone is a web-based application that replicates the core functionalities and user interface of the original Earserio platform. This clone likely includes essential features designed for ease of use and seamless navigation. Built with modern frontend technologies, it showcases proficiency in responsive design, UI/UX principles, and possibly state management for dynamic interactions. It may serve as a demonstration of skills in web development, offering a clean and interactive experience similar to the original Earserio platform.
